INSURANCE MAN,
LIVES AMONG YOU;
JUST PASSING THRU?
MILLER, Hondo, Texas,
Since 1907.

ARE YOU A PROGRESSIVE TEXAN?

Texas this year will spend many hundreds of millions for products. If this were to remain in the state, passing through the hands of our people, we can still maintain our standard of living, but if it goes out of this state, as it has in the past, we are draining the reservoir that has not been filling as rapidly as it has in the past.

This year there will be Eighteen Million Dollars worth of shirts produced in Texas. On the old basis, Texas would get 6 cents for this cotton, and \$1.49 would go to enrich another community, but if our people would buy Texas-made shirts, that Eighteen Million Dollars would stay here with our own people, and would be equal to the agricultural crops of sweet potatoes, Irish potatoes, rice, pecans, oranges, lemons, limes, grapefruit, apples and peaches. Multiply this same ratio by what you wear, what your wife wears, what your children wear, and the food and furniture that go into your home, and you can readily see that we can take care of our own people if these millions are not drained out of this state.

You are going to buy these things anyway, so why not specify the products of our own people?

Read this column next week for additional information.

GOOD SYRUP MADE IN MEDINA COUNTY.

An excellent quality of sorghum syrup, commonly called molasses, is being made in South Texas, is the opinion of C. F. Walton, Chemist, U. S. Dept. of Agriculture Bureau of Chemistry and Soils, at a meeting of 25 syrup makers from Medina, Uvalde and Frio Counties at the farm of John H. Weimers Saturday morning.

Matters pertaining to syrup making were discussed at Mr. Weimers' while the syrup was being made. Questions of interest were adaptability of various soils, varieties of cane, types of furnaces, vats, evaporators and containers and the various steps in the process of making syrup.

The farmers present were experienced syrup makers and exchanged many ideas helpful to each other. Mr. Walton, whose services were obtained by County Agent Merritt through the Extension Service, is not only an experienced syrup maker but also has had wide observation throughout the United States and elsewhere of sorghum, sugar cane and maple syrups. He also gives much time in studying technical problems of syrup making in annual cooperation with farmers.

After visiting several syrup mills in Medina County Friday he was well impressed by the skill in making syrup on the farm. The variety of cane from which syrup is made is highly important. Mr. Walton stated. Your farmers seem to know their preferences quite well, with the help of their good wives they are highly skillful in turning out a syrup which should attract a good market; such syrup should be exhibited at fairs where standards may be decided upon as an aid to consumers in buying.

County agents from several nearby counties were present to become better prepared to assist syrup makers in their respective counties.
C. M. Merritt, County Agent.

BAPTIST NEWS NOTES.

Big day at the Baptist church next Sunday. The Bible school lesson is on the Second Table of the Law, or Man's religious relationship to his fellowman. It would be a fine thing for every lazy man in town, who for the same reason is ignorant of his Bible, to join the Pastor's Class on next Sunday, determining to try to be just what our Creator wishes us to be—intelligent, upright, consecrated men. Think of it! How awful it must be to be of no account. If all the lazy, trifling sinners, both men and women, should go to church on next Sunday, we would have to "bring in chairs" to accommodate them. Try us. Come.

At the morning hour the Pastor will speak on "Christian Enthusiasm." Let us all be present and get a little pep under our skin. We hope to have "special music." At night, we hope again to have a fine attendance of our Methodist friends. We want them to come to the Choir and help our fine singers with some good music. The subject for the sermon will be "The Tears of Jesus, or Why Did Jesus Weep?" Possibly it was on your account. Come and see and bring your visitors; bring the children and also your neighbors. Bring also a prayer in your heart. Let us have a good time together. "Blessed are they who do hunger and thirst after righteousness; for they shall be filled." Jesus.

The Pastor.

TWO NEGROES EXECUTED FOR SLAYING TEXAN.

Huntsville, Aug. 5.—John L. Green, 20, and Ernest Johnson, 18, negroes, were executed in the state prison here early today for the murder of Frank Kempf, a white man.

Kempf, a Medina county dairyman, was robbed and fatally beaten in June a year ago. Green was tried in Caldwell County.

Green was the first executed. A priest led each of the men to the death chamber. Except to take farewell of the priest and prison officials, neither negro made any statement.

ST. PAUL'S LUTHERAN CHURCH.

"If I do not the works of my Father, believe Me not."

But if I do, though ye believe not Me, believe the works that ye may know, and believe, that the Father is in Me, and I in Him.

Therefore they sought again to take Him, but He escaped out of their hand. John 10, 37-39.

Faith, where is it? Where is the faith that can remove mountains? Why are we often so lacking in our confidence in God and His great goodness? In His power that can save to the uttermost? Christ has time and again made the same experience with us, which a certain man made, who stood on a London bridge one day shouting, "A guinea (five dollars) for a penny!" Smiling the people passed him by. A laborer finally bought him, but only in order to bring his child one of these supposed toys. Since it seemed rather heavy to him, however, he went to a jewelry store to have it tested. "Genuine gold," was the verdict. He ran back to the peddler, but he had gone. He had carried on this peculiar sale for only one hour for the sake of a wager, and the time had elapsed. He had won his bet; not one had believed him. If we do not believe when Christ speaks of earthly things, how much less when He speaks of heavenly things. "Do not doubtful, but believing."

There will be regular service at our Church next Sunday morning in the German language beginning at 10:30 o'clock. The Sunday School and Bible Classes will meet at 9:15. The night service will begin at eight o'clock and will be in the English language. On Sunday, August 21, we hope to have the privilege of hearing Milton Falkenberg, the young Candidate of Theology from Wartburg Seminary, Dubuque, Iowa, deliver the sermon in the English language. Our young student will conduct the entire service since the local pastor will be north on a vacation. Mr. Falkenberg will soon return to Dubuque, where he will complete his preparation for the Holy Ministry.

The congregation has granted Rev. and Mrs. Leibfarth a vacation to make a trip home in Iowa. They plan to leave on Monday, August 15. The arrangements regarding services will appear from week to week. Please read the notices.

TO THE VOTERS OF THE TWENTY-NINTH SENATORIAL DISTRICT.

I have reached a decision to withdraw as a candidate for re-election to the office of State Senator from the 29th Senatorial District in the run off primary election to be held August 27, 1932. In the present chaotic state, politically and financially, I believe an early adjournment of politics would be welcomed by the majority of our citizens and I am inclined to contribute to this end. Of greater moment than the destinies of any candidate for public office, is the immediate and pressing question of earning a livelihood, which has taxed the ingenuity of so many of our people during these trying times.

When the hour arrives to surrender my commission as your State Senator, it will be in the consciousness that I have performed the highest degree of service within my power. The principles and policies I have advocated in State Government are as enduring as Mother Earth. My record is an open book, on it I stand and would not change it if I could. Perhaps the mellowing influence of time will act as a leaven in deepening appreciation of my record of constructive achievement in behalf of my district and the State, which will compensate abundantly for all the vexations and monetary sacrifices instant to holding public office.

To the thousands of loyal friends who stood by me in the first primary, I am profoundly grateful, and to those who expressed a preference for other candidates, I have only the kindest feeling. Let us continue with renewed energy and enthusiasm, our efforts for the good of Texas.

Benjamin Franklin Berkeley.

Carole Lombard and Chester Morris share the lead in "Sinners in the Sun", which comes to the Colonial Theatre tonight and Saturday night. Miss Lombard is a hard working dress model in an exclusive shop, in love mutually with Mechanic Morris, but whom she refuses to marry until he accumulates more money. Their consequent actions make up the plot of this picture that carries you over the world, into society, a dress factory, into the final satisfactory close up in an elevator.

A splendid cast assists Miss Lombard and Chester Morris. Included are Adrienne Ames, Alison Skipworth, Walter Byron, Cary Grant, Rita Le Roy and other talented players.

There always will be good demand for homes and fields and fertile land; And those who put their savings by Can own a home if they but try. The man who lives from day to day, Keeps paying rent that he may stay, Had better own some little place And start from there to win life's race. The Hondo State Bank knows of a plan Where you can buy if you're the man.

(Copr. 1927 Adam Brown Hunter) HONDO STATE BANK

THE COMMERCIAL USE OF TEXAS HIGHWAYS IS A PRIVILEGE, NOT A RIGHT

● The highways of Texas are the property of its citizens. They constitute a system of nearly 200,000 miles of road of which 20,000 miles are designated as State highways and the remainder are county roads. All types of road are represented in this system, less than 5% have so-called "permanent" surface.

The total cost of these highways is unknown but it amounts to many hundred million dollars. From 1917 to 1930, inclusive, counties and road districts of the State issued \$243,532,834 in bonds for the construction and improvement of roads and bridges. In the two-year period ending August 31, 1930, the State Highway Commission expended \$89,032,825, of which \$22,488,426 was for maintenance of the State highways.

In view of these tremendous costs the preservation of our highways from rapid wear and destruction is a matter of very vital interest to their owners, viz., the public. It is especially important that they be made to outlast the life of the bonds, which run from 20 to 30 years.

The use of the public highways for commercial purposes is not a right but a privilege which may be withheld or granted subject to such restrictions, regulations and charges as the Legislature may see fit to impose. Such regulations are intended to promote safety, preserve the highways and safeguard the interests of the public.

Texas Railroads, which pay the entire cost of construction and maintenance of their own roadbeds and, in addition, make substantial contributions to the cost of Texas highways, are thoroughly regulated with respect to their services, rates, methods and practices. There is no good reason why commercial users of the highways, built and maintained at the expense of the public, should not likewise be regulated to such extent as the public interest requires and pay such charges as will represent proper compensation for the privileges granted them.

● The statutes governing highway transportation as enacted by the Forty-second Legislature represent the wishes of the citizens of this State and express their desire to give equal rights to all and special privileges to none. These statutes should be given a fair trial and their value ascertained. Unless this is done, a chaotic condition in transportation as a whole will surely ensue.

COLLEGE EDUCATION.

The following startling figures are based on records of the United States Bureau of Education:

Seven out of every ten who launch out in a four years college course never finish. It is sad to think that seventy per cent of our ambitious boys and girls are so disappointed in their life's aim, but what will be worse this fall is the fact that most of them will realize the impossibility of their being able to finance a four year college course.

Young friend, don't let these facts discourage you. There is another way; achieve success by securing a thorough business training in the Byrne Commercial College. Spend from three to five months in Byrne College and you can accept a government position or a position with a good business firm, or get a secretarial or accounting position in connection with the college or university you wish to attend and earn your way through college. We have had many boys and girls to make their way through a four year's college course with a Byrne training. Some hold good positions during the summer, save their money and pay for their college training during the winter. Others accept part time office work while attending the university and earn money with which to pay their expenses.

Should you find, after completing your business education and accepting a position with the government or a business firm, that you prefer being a business man or woman rather than a professional one, you would have that privilege. The expense of attending Byrne College from three to five months is so much less than attending a university even for one year that most any boy or girl can make the necessary financial arrangements.

The Byrne Colleges are all located in large cities where spare time work may be had to earn board and room. The College also has an installment plan of paying tuition which is an accommodation to many.

FARM PROJECT ASKS RECEIVER

That the San Antonio Suburban
Irrigated Farms, a huge project
authorized by Medina Lake, may be
thrown into bankruptcy proceedings
indicated as a possibility Tuesday
by Federal Judge DuVal West.

Judge West had heard the applica-
tion of the Farms to make receiver-
ship proceedings, which apply to only
part of the vast project, general.

If either general receivership or
bankruptcy proceedings are followed,
the income of Natalia, as well as
other personal property of the farms
company, valued approximately \$25-
\$30, will be included, it was said.

Judge West suggested that all at-
torneys interested in the matter in-
vestigate the possibility of bankruptcy
proceedings might be preferable
or necessary now, due to the state
of the company's finances. The court
promised a hearing in chambers Wed-
nesday.

Marshall Eskridge, attorney for
the San Antonio Suburban Irrigated
Farms presented a motion asking
the receivership be made general.
He told the court about 28,000 acres
are not affected by receivership
proceedings, precipitated when the
Wheeler Hagney Kelly Trust Com-
pany, trustee, sought this method to
protect its lien for more than \$1,000,
000 on the land specified.—Wednes-

"I have been taking Kruschen
Salts for 4 months and I think they
are wonderful. I am 32 years old
and 5 ft. 2 in. tall. I was very fat.
I weighed 165 lbs. and now I weigh
127 lbs. and feel fine. If I let up
taking the Salts one morning I feel
lazy and heavy", Mrs. Florence
Loftus, Boston.

This is just one of hundreds of let-
ters we get every month—Kruschen
not only causes you to lose fat but
while you are losing it you gain in
health—in vivaciousness—you lose
fat where fat is most prominent and
at the same time keep stomach, liver,
kidneys and bowels functioning
naturally.

Any drugstore in the world will
sell you a jar of Kruschen for a trif-
ling sum—take one-half teaspoonful
in a glass of hot water every morning
—go light on fatty meats, potatoes
and sweets. But for your health's
sake demand and get Kruschen Salts
—imitations are numerous. It's the
little daily dose that does it.

HIGHWAY COMMITTEE WENT TO
AUSTIN TUESDAY.

County Judge Noonan, Commis-
sioner J. W. Roberson, H. D. Talley,
H. W. Eschenberg, Mr. Langston, and
perhaps others whose names we did
not get, went to Austin again Tues-
day to see that the proposed new
straight road between Devine-Hondo-
Jourdanton is kept before the High-
way commission. We understand
that the State Engineer has recom-
mended a straight road from Hondo
via Biry to Devine to connect the two
highways at either end. Pearsall and
Uvalde were expected to be there to
get a highway designated between
Pearsall and Uvalde. It is not
thought the commission will grant
two such cut-offs, however, and there
may be a contest regarding the mat-
ter. A committee from Jourdanton
was to be there also.

August 14, Lutheran Zion's church, Castroville. Divine services at 10 A. M. in the German language. Sunday School begins at 9 A. M. All children are kindly requested to be present and to receive the new Biblical history books.

The next meeting of Zion's Lutheran League will be held on Sunday, August 21, at 8:30 P. M. The present membership consists of 39 members. This good beginning is full of promise for the future. All the young people should realize how much such a movement and organization may mean for their own development along those lines that help to attain the ideal. Please don't forget that this work is being done for your own welfare; attend all the meetings and bring your friends along. That will be a kind of mission work too.

The picnic last Sunday was well attended. In the morning we had divine service. The subject of the sermon had to do with a very well known story, namely the Pharisee and the Publican. The speaker emphasized the teaching of the Bible that God resisteth the proud and giveth grace to the humble. The church choir and the Sunday School rendered several hymns accompanied by organ and violin, the latter played by Miss Tinsdale Wurzbach.

Besides the fine musical numbers during the afternoon program the audience had the pleasure to listen to the excellent and educational addresses given by Rev. Leibfarth and Superintendent Saathoff of Hondo. After this feast of the mind our good people provided ample material for a feast of the body. In spite of the heat of the afternoon the picnic was enjoyed by everybody.

While the Brontosaurus browsed in OKLAHOMA

Millions of years ago—even before the ancient Brontosaurus lived—Nature formed the Cambro-Ordovician oil pool in Oklahoma. Today this oldest of Mid-continent crudes is piped to the great Sinclair refineries where it is refined, blended, de-waxed, freed from petroleum jelly and made into Sinclair Opaline—a product resulting from 80 million years of filtering and mellowing. Try a crankcaseful of Sinclair Opaline—note how it stands up in the heat of fast driving. Note especially at draining time how little oil has been used up—positive, visible proof of protection for the last mile as well as the first!

IN MEMORIAM.

In loving remembrance of our dear great Grandmother, Mrs. Anna Haass, who died August 1, 1932. Another loved one was called to leave for a land of love and peace. Where the weary souls rest is given, Everlasting reward in a place called heaven.

We feel it is hard from our loved one to part. But we know it was the will of the Lord. That her soul should be wafted to the Heavenly heights. Where our loving Father's glory is in her sight.

Of life's pleasures she had many a share, Having also a part in trouble and care. But now of life's duties she is free, And forever she will enjoy Eternity.

Oh children, it's only a few short days That you can see your mother's face. Therefore weep not but cheer up and say The day of our reunion will be a happy day.

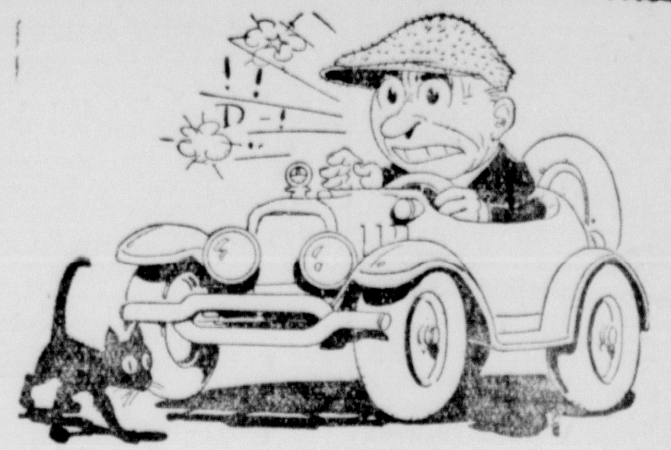

Farewell, dear and beloved great Grandmother. In heaven we shall meet again. By her great Granddaughters, Elsie and Shirley Boehle.
